

# PRINT & GRAPHICS

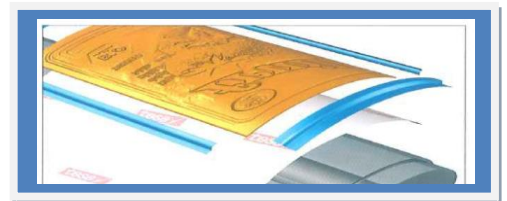

**Flexographic Plate Mounting, Plate Cleaning, Roller Wrapping,  
Web Splicing, End Tabbing, Edge Sealing, Lithographic**

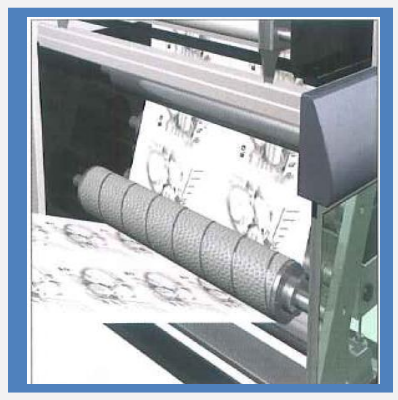

**Platemounting Tapes –**  
Hardmount or cushionmount  
Bespoke widths –  
4 thou to 20 thou thick

**Plate Cleaning –** Removal of  
small particles of lint and  
dust after the plate has  
been mounted.

**Edge Sealing Tapes –** which  
adhere to the photopolymer  
plates and then remove with no  
residue.

**Roller Wrapping –** napped or  
smooth anti stick surface for  
adhesive coating, labels &  
printing. Prevents deposit  
build up & material  
movement across web.

**Core Starting Tape –** Excellent  
adhesion to ensure web is securely  
fixed to the core.

**Splicing Tapes –**  
Manual or automatic for  
papers, films, and foils.
